

News from spring 2012

BVRL introduces self-scanning stations -- these workstations (one PC-based and one Apple-based) are supplied with Photoshop, a flatbed scanner and a slide scanner, and are available for use by CFA faculty and teaching graduate students. Stop in for more information.

The Visual Resources Association (VRA) has announced that Albuquerque will be the host location for its 30th Annual Conference, April 18-21, 2012. BVRL and UL employees are providing local support for this important conference. Click [here](#) <<http://vraweb.org/conferences/vra30/>> to access the conference website.

Please click [here](#) <<http://www.unm.edu/~bbmsl/newsletters/vol%203%20Spring%202011.pdf>> to read the recent BVRL newsletter (Spring 2011) with important information about accessing Bunting digital image collections in ARTstor.
